

 **EJOBPLAN11**

Effective Job Planning software for all clinical staff groups.

Facilitates job planning for all those with a clinical role, including Consultants, SAS doctors, AHPs and Nurses. It helps organisations plan the work of their most important clinical resources, whilst integrating with operational rostering and activity management, to ensure individuals' clinical activity is aligned to your organisations service plans and therefore, meet patients needs.

**Less Paperwork**

Cut down on admin created by paperbased solutions and reduce time spent on them

**Drive Consistency**

Adopt standard processes and consistently calculate hours and sessions across the organisation

**Full Control**

Track job planning progress in real time and set limits on sessions added to a job plan

**Real World Savings**

No excessive expenditure as well defined job plans drive efficient resourcing

**New Look for 2020**

New user interface makes job planning simpler, easier and more intuitive

New for 2020: eJobPlan11 has a fresh new look that is modern and easier to use, along with the ability to job plan on the go using your tablet or mobile device.

"There's been a very obvious benefit in terms of finance. Overall the medical task force and Allocate's contribution to support that has saved the trusted £6 million"

Dr Andy Haynes
Sherwood Forest Hospitals NHS
Foundation Trust

Standardised and transparent job plan process that's fully integrated with operational rostering

What's new in eJobPlan11?

Our latest evolution in job planning means everyone can now job plan where they want, thanks to its ability to operate on tablet devices. The new user interface is cleaner, simpler and more intuitive to use and in all, allows healthcare professionals to spend more time caring on the front line.

eJobPlan is a software solution used by over 150 NHS organisations. eJobPlan facilitates job planning for all clinical staff groups, including consultants, associate specialists, allied health professionals, pharmacists and clinical nurse specialists.

Benefits

- New for 2020 - job plan where you want with ability to operate on tablet devices.
- Reduce admin compared to paper-based solutions.
- Instills a defined job planning process and language that everyone understands.
- Easy to consolidate job plans with comprehensive reporting.
- Ensures governance in sign off process.
- Transparency and fairness in the way activities are remunerated.
- Drive Real World Savings with efficient resourcing of people to task.
- Improve patient care by putting the right people, in the right place, at the right time.
- Integrates with Allocate's ActivityManager to reduce administration and align job plans with rosters.

Features

- New for 2020: Next generation user interface that is modern and intuitive.
- New for 2020: Accessible on tablet devices.
- Reporting suite for all managers to monitor progress and interrogate detailed activity data to support further analysis.
- Capture multiple on-call rotas and 'hot activity' over any cycle length.
- Analysis tool enables department managers to create service plan of activities and identify over or under utilisation.
- Activity Calendar tool available for teams and managers.
- Link activity to specific organisation, service or personal objectives.
- Up to three levels of electronic sign-off.
- Includes pre-populated travel time between hospital and clinic sites.
- Tailor activity language by individual services, within a standard framework.
- Integrate eRostering to turn job plans into operational rosters and clinical schedules.

Integrates with HealthRoster, ActivityManager and MedicAppraisal

eJobPlan11 helps to put the right people, in the right place, at the right time.
